PRESTIGE 1600 | HYBRID PERFORMANCE

The Prestige 1600 has combined trusted performance from 38 UV lamps along with 14 Smart Sun lamps, which are a perfect combination of UV and Red Light in the same lamp, providing a more golden, natural looking tan. Featuring the Personal Sunstyle, users can reduce UV output during a session and while maintaining the benefits of Red Light for the body and face. Red Light LED's are featured in the facial area to further enhance the benefits of skin care and create a more effective tanning session. Fully equipped with all standard options and Bluetooth, the Prestige 1600 delivers a new level of tanning.

CONTRAINDICATIONS:

Follow Instructions. Avoid over-exposure as with natural sunlight. Over-exposure can cause eye or skin injury and allergic reactions. Repeated exposure may cause premature aging of the skin and skin cancer. ALWAYS WEAR PROTECTIVE EYEWEAR! Failure to do so may result in severe burns or long term injury to the eyes. Certain medications or cosmetics may increase your sensitivity to ultraviolet radiation. Consult a physician before using sunlamps if you are using medication, have a history of skin problems or believe yourself to be especially sensitive to sunlight. If you do not tan in the sun, you are unlikely to tan from the use of this product. Please refer to the recommended exposure schedule for your skin type and do not tan more than once in a 24-hour period. Attention: This sunlamp product should not be used on persons under the age of 18 years. Persons who should not use this device include anyone who is sunburned, has open wounds, is naturally pale, has discolored patches of skin, has an increased risk of skin cancer, is being treated for or taking medicine causing photosensitivity, is pregnant, has atypical moles or more than 16 moles on their body (2mm diameter or larger). © 2020 JK Products & Services, Inc.
